Hello!

The Natural Resource Trustees sent the PRPs a Notice of Intent to perform an injury assessment (attached) earlier this month. On February 5th the Trustees will be conducting a scoping meeting to share information and begin to develop a draft outline for a Portland Harbor injury assessment plan. The Trustees would appreciate your participation at our scoping meeting. Considering that both of you know more about the data gathered at this site than anyone else I definitely believe that your participation would be value added. Below are the meeting details, please let me know if you plan to attend. Thank you!
